

100,000 BUCKEYES FOR A CURE

Chris's Number Is 36, What's Yours?

Invokause, a nonprofit organization specializing in creative programs for community causes, has found a unique way to support the Stefanie Spielman Fund for Breast Cancer Research at The Ohio State University Comprehensive Cancer Center – Arthur G. James Cancer Hospital and Richard J. Solove Research Institute (OSUCCC-James).

Invokause is constructing the world's largest buckeye necklace in honor of the Spielman Fund through individual and corporate donations. This groundbreaking endeavor, which began in 2006, will demonstrate the spirit of the community in supporting this very special cause.

The Buckeyes For A Cure (BFAC) program will sell individual buckeyes for \$2.50 each. A significant portion of each buckeye sold will go directly to the Spielman Fund. These buckeyes are hand picked and will get sequentially numbered then strung to the necklace each time one is sold. Those who purchase a buckeye will be able to view a picture of their numbered buckeye on the buckeyesforacure.com site in the "participants" section.

The goal is to construct a necklace consisting of 100,000 buckeyes, which will span a mile and a half long end to end! Once the program has concluded the necklace will be accessible for public viewing in an 8 foot "Block O" display at a public location to be determined.

Each participant will not only have helped in building the world's largest buckeye necklace, but more importantly they will have participated in a cause that needs all of our help.

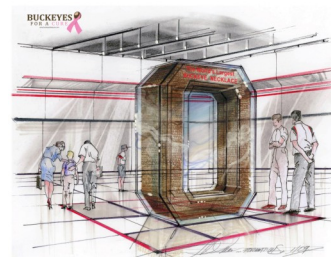

Proceeds To Benefit:

stefanie spielman
FUND FOR BREAST CANCER RESEARCH

OSU COMPREHENSIVE CANCER CENTER
JAMES CANCER HOSPITAL &
SOLOVE RESEARCH INSTITUTE
